PROACTIVE CYBERSECURITY THAT DEFENDS AGAINST THREATS, BEFORE THEY STRIKE.

CYBER DEFENSE LABS

CYBER DEFENSE LABS PROVIDES **PROACTIVE SERVICES** TO HELP COMPANIES REDUCE RISK AND CREATE MORE RESILIENT BUSINESS OPERATIONS.

As the cyber threat landscape continues to advance and grow exponentially, organizations of all sizes and across all verticals must continually evolve and reassure stakeholders that their most critical and valued assets remain protected. Cyber Defense Labs provides trusted, cost effective cybersecurity advisory and management services to reduce risk before, during and after a cyber incident.

Cyber Defense Labs delivers a **PROACTIVE Resilience Framework** that protects against the most sophisticated cyber threats by focusing on:

- Business continuity & resilience.
- Prioritizing defenses to address actual risks.
- Continuous testing, training and improvement.

UNDERSTAND · TRANSFORM · EVOLVE
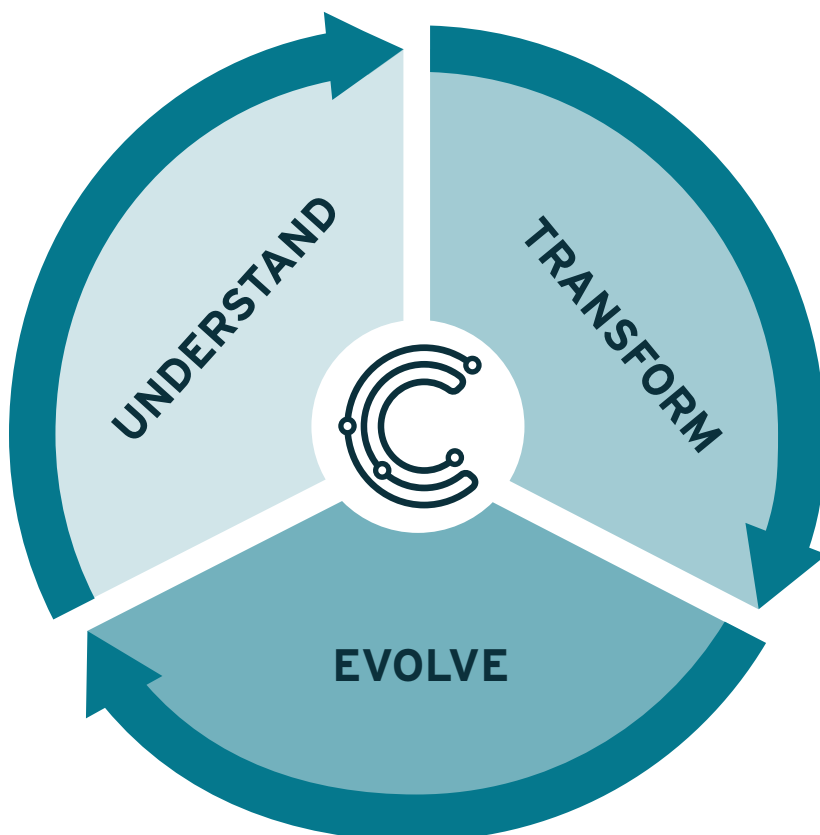

OUR APPROACH

1. **Understanding your priorities.** We conduct a thorough assessment of your unique environment, actual threats, risks, vulnerabilities and potential severity of impact.

2. **Transform your operations.** We deliver a detailed action plan to improve resiliency, increase security effectiveness and achieve your desired security posture.

3. **Continue to test, analyze & evolve.** We remain engaged as a steadfast, trusted partner helping at every stage of the cyber lifecycle – before, during and after a cyber event.
